

ERICA CUDDEBACK

Frontend Web Developer

PROFILE

Recently becoming a mother, I desired to find a better work-life balance to be involved in my growing family's life. Inspired by my husband who is a Software Engineer, I began my career in software development. I enjoy collaborating with others to achieve our set goals. My creative mindset, coupled with strong problem-solving skills, allows me to adapt seamlessly to diverse challenges. I thrive in an environment that values constructive criticism, showcasing my ability to learn and grow. Possessing a keen sense of critical thinking, I excel in time management, organization, and attention to detail. Feel free to contact me with any questions you may have.
